of 23 powerful Monkey Towers, each featuring three unique upgrade paths with specialized abilities. From dart-throwing monkeys to helicopter pilots and submarine captains, the diverse selection allows for countless strategic combinations. Additionally, the game introduces "Paragons," which are ultra-powerful tower upgrades that combine the
strengths of all three upgrade paths into formidable defensive units. The game introduces a special category of towers called "Heroes" - exceptional monkeys with unique abilities, that automatically level up over time or can be boosted using in-game currency. With 16 diverse Heroes available, each with 20 signature upgrades and two special abilities,
players can dramatically alter their gameplay strategy based on their Hero selection. Heroes also feature unlockable skins and voice packs for additional customization. Players can test their strategic skills across more than 70 handcrafted maps spanning various difficulty levels from beginner to expert. Each map presents unique challenges, obstacles,
and terrain features that require thoughtful tower placement and strategy adjustment. Some maps contain obstacles that block towers' line of sight or prevent tower placement altogether, adding another layer of strategic depth. Bloons TD 6 offers various difficulty levels (Easy, Medium, and Hard) and numerous game modes that modify the standard
rules. These include specialized modes like Military Only, Apopalypse (continuous Bloon waves with no breaks), Reverse, and many more. The game also features a Sandbox mode where players can experiment with different tower combinations and strategies without restrictions. In Bloons TD 6, players start each match with a set amount of lives and
money. The objective is to prevent Bloons from reaching the exit by strategically placing monkey towers along their path. As players pop Bloons, they earn cash to purchase additional towers or upgrade existing ones. The game progresses through rounds of increasing difficulty, with stronger Bloons appearing in later stages. Standard rounds end at
different points depending on the difficulty: Round 40 for Easy, Round 60 for Medium, and Round 80 for Hard. After completing the required rounds, players can continue into Endless Mode to test how far their defense can go. Special MOAB-class Bloons (Massive Ornary Air Blimps) serve as mini-bosses throughout the game, with different variants
appearing at specific rounds. These include the standard MOAB, BFB (Brutal Floating Behemoth), ZOMG (Zeppelin Of Mighty Gargantuaness), DDT (Dark Dirigible Titan), and the ultimate BAD (Big Airship of Doom). The game also features a robust multiplayer component, allowing up to four players to cooperate in defending against Bloon invasions
in both public and private matches. Exceptional Depth: The game offers remarkable strategic depth with its diverse towers, maps, and game modes. Offline Play: Single-player mode works without an internet
connection, allowing for gameplay anywhere. Co-op Mode: The 4-player cooperative mode adds a new dimension of fun and strategy to the game provides hundreds of
hours of engaging gameplay. Time Investment: Games can take over 30 minutes to complete, making it less suitable for quick entertainment. Aesthetic Limitations: The cartoony look and theme might not appeal to all
players, particularly those seeking more realistic graphics. Learning Curve: New players might find the variety of towers, upgrades, and Bloon types overwhelming at first. Games ActionTower Defense Bloons TD 6 is available to play for free on our website without any downloads. Bloons TD 6 is the
sixth game in the Bloons Tower Defense series of semi-idle tower-defense games that feature a monkey society defending against balloon (bloon) enemies. In this installment, the player defends six territories (Monkey Meadows, Downstream, In the Loop, Park Path, Town Center and Tree Stump) with monkeys, towers and other weapons. The game
offers beginner, intermediate, advanced and expert difficulty levels. After the player selects a territory map and difficulty level, they receive access to a top-down view of the area they need to defend and available weapons. Unlike the majority of the previous games, Bloons TD 6 has a smaller number of defenses (Dart Monkey, Tack Tower, Cannon,
Ice Monkey and Supper Monkey). That said, the player can continuously upgrade their weapons, as long as they have enough coins. Each weapon offers unique capabilities. For example, a Tack Tower shoots spikes in a circle, and an Ice Monkey makes the bloons slow down or freeze. Bloons TD 6 also allows the player to place defenses during the
movement of the bloons through the territory. Most of the other games in this series require the player to place their "towers" and then wait to see if their defense at any time. Related games: Bloons TD 6 - Bloons TD 5 -
